*Cal - March 17, 2010, 10:08 pm*

I don't like you. Go away.

Also, not everybody knows you. There are some people on the forums from \*Gasp\* Outside. In fact, several.

I've seen those sig fig thingies loads of times and each time they confuse me. Is it a mathematicaladoodle term?

And I want to meet cool outside-y people! And I also think we should give John money because I don't think he's made enough from this cool thing![/php]

Significant Figures? As in, rounding numbers so they only contain a certain amount of non-0 digits? To, I dunno, 345,675 to two significant figures would be 350,000. That's your maths lesson today, Fenwick.
